

Sinclair is the same company which refused to air Night-line's reading of the Iraq invasion war dead. It is obvious that this company is using its air rights to promote its own political agenda.

As a citizen of the U.S., I feel that our democracy is depended on a free press; one that doesn't edit to promote a political agenda.

Now, Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of this political agenda.

I strongly recommend that you revoke the license of this company, as it is not serving the public interest by providing balanced news coverage: it is not acting as a free press, but rather as propaganda.
